

12 April 1954

Mr. J. T. Campbell, Head  
EBC Monitoring Service  
Caversham Park  
Reading, Berks., England

Dear Mr. Campbell:

This is to advise you that we have received the EBC requirements covering FBIS material to be wire filed to Caversham which we discussed at our recent meeting. We are disseminating the requirements to the East and West Coast, Okinawa, Tokyo, Hokkaido, and Saigon Bureaus and to our Washington Wire Services Section and directing that they be given the strictest possible adherence consonant with full coverage.

I hope that this will have the desired effect of reducing the volume of your incoming FBIS traffic to manageable proportions. Should there be further need for reduction in volume, please let us know.

Sincerely,

RGS:jmb
